Special Notice to Business Men. As an ofvertising paper, the Domocrat is uni areally regarded as the established medium of business communication between the buyer and veller; its largely increasing circulation, both a home and abroad, offers a favorable opportunity for a judicions dissoutination of mercentile intel gence. It is also a favorite family journa', bence retail dealers, as well as more extensive tradespeople, mechanics and citizens will ful its col smas essential to prosperous business

It stands at the head of one of the great parties of the country, reaching thousands that no other nedium does roach. Now that the "Fall Cam paign" is drawing upon us, we hope they will no fail to learn the facilities our paper affords them but at once avail themselves of its advantages, "high surpassanvibleg in its former history.

The Know-Nothings are now publishing to he world the commendation of Fil more by members of the Democratic party. This is about the best movement they have maic. Fillmes inus here behaved respectably, or he would not hav wou the approbation of Domocrats; but, at the same time, we dun't see how the commendation from Democrats will help him along at present It is a fashion Democrats have, when a politica sinner does better than they expected, to give him. three chaers at least; and so they seted toward John Tyler and Millard Fillmore; the former dis appointed his whole parry North and South, tre latter disappointed his party North still mer grier a ly in approving the compromise bills, and the fugitive slave law. Nobedy had expected such a result. Fillm ire had, whilst a member of Congress, never given other than an Abolition vote on the elevery question. He was part of the old Abilition guard, along with Adams, Slade, Gid diags & Co. The Democracy of the North reiseo s shon' of trinuph when Fillmore fell on thei elds. When he played the part o Capt. Tyleupon his friends of that region, they dil ha him, and execrate him as a traitor to his own professions and a traitor to freedom. He retained only a small body guard then, as Capt. Tyler di in his day; but the mass of his supporters who made him Vice President, considered him little better than Benedict Arnold.

Every one knows that this is the true state of be case; and, by the way, it illustrates the felly of expectlar Pilimers to run any sort of race in the free States John Tyler had just as well ex peated that he could run as a Whig candidate i and defeated ell their purposes. Tyler enjoyed time. They commeaded his firm adherence to principle, and his refusal to cancilon the policy of his party. The Whigs might have nominated him, and quoted Democratic commendation of him It is true that Fillmore did disappoint the New York Times : Abolitionists who made him President; and who t-ased their expectations on the antereicute of his whole political life on the slavery question. We sall commend bim for doing it; it was his duty; but at the same time we can't admire the example. The man elected to office with one set of antecedente, and for any reason disappoints thee who elected him, set an example decidedly bal. Such obseges from wrong to right are not without their wile. The subject of them must pay the peralty of his previous error, in the loss of the confidence of these he has disappointed. John Tyler did not cape; although be was not false to his autocedents but only to his arcidental position. The misfortun la much greater with Fillmore, in the larger portion of his party; but he is somewhat relieved by the approbation of the rest. They were agreeably disappointed, and only thought the more of Fil more for hle disappointment of the other wing the bead of a different party; but his former deem his treachery; end now his supporters enter-tain the public with the commendation of Demo-crats for what Fillmore did, who was elected as a friends of the North have not forgotten what they Whig. It is no very good sign in a man's behalf, when his opponents cheer him on for doing what his own supporters, or a majority of them, condemn. There has been something wrong; some them to five the his own supporters, or a majority of them, condemn. There has been something wrong; somesomn. There has been something wrong; some-

Unfortunately, Fill had all been drank up, the gas spent, &c., were more is wrong already. He corretly deserted the moneuring the street with selemn steps, and ramiparty that made him Vice President. He has taken secret oaths to proscribe men for their religious feith or the place of their birth. He mouths about Union, and rails at the repect of sectional measure.
